• Berufsförderungswerk Nürnberg gemeinnützige Gesellschaft mit beschränkter Haftung
  public and non profit, vocational education

• Dél-dunántúli Regionális Munkaügyi Központ
  Regional Employment service, public and non profit
Goals of the project:

Exchange and comparison of methods and innovative approaches in the field of training, employment and social inclusion of persons with disabilities.

WHY?

- observe and evaluate basic and key competencies of adults with disabilities
- improve the validation of non-formal and informal learning outcomes, taking into account the different needs of adults with disabilities in learning process
- recognise the observed and evaluated competences in order to improve social insertion and job insertion of people with disabilities: Guidance & counselling action
- compare their best practices with different European frameworks
- find new activities that could address their methods towards shared European dimension, and test the chosen changes in everyday work
- share recommendations for the mainstreaming for organization working on different levels concerning disabled adults within the framework of the Lifelong Learning
- to create a common cooperation document in order to create a permanent European network focused on theme related to disabled adults in lifelong learning.
