Presentation title	Development and implementation of the Croatian Qualifications Framework / <i>Razvoj i provedba Hrvatskoga kvalifikacijskog okvira</i>

<p>Short abstract * (include relation to the RESULTS/ACHIEVEMENTS bullet points of the seminar below)</p>	<p>National qualifications frameworks in different countries vary in the extent to which they intend to describe or reform the existing national systems. The Croatian Qualifications Framework (CROQF), coordinating and integrating all relevant stakeholders, introducing clear learning outcomes, assessment criteria and quality assurance of all qualifications. The CROQF has been developed for a better communications between stakeholders, reflection of the existing and new qualifications and reform of the system in Croatia. The referencing of the CROQF to the EQF and self-certification to the QF-EHEA are integrated within one process building more transparency and quality. The basic elements of the CROQF will be presented, including understanding and implementation of learning outcomes and quality assurance system. The structure of the report and information on fulfilment to all EQF, QF-EHEA and quality assurance criteria and procedures will be also presented. This includes cooperation between countries in the region and active involvement of international experts which brings additional transparency and quality in the referencing process, promoting trust towards EQF and QF-EHEA.</p>
<p>Needed equipment</p>	<p>Computer, beamer</p>
