

IES Joaquín Artiles is a public school located in the southeast of Gran Canaria, in the Canary Islands (Spain). It is composed of 520 students, and 45 teachers. Our school teaches secondary in 2 stages (compulsory and non-compulsory education) that is, students from 12 to 18 years.

We would like to count on with an Erasmus assistant because our aim is to open new horizons for our students, and contact with people from other cultures will be of a great help. For that reason, we would like to welcome a person who will be in charge of reinforcing the knowledge of languages and foreign civilizations.

**The main tasks for our Erasmus Assistant would be:**

- Linguistic support in a foreign language (French or English, according to his/her nationality).
- Provide students with knowledge about the civilization and culture of his/her country.
- Collaborate in the school project “ promoting reading and the use of the school library”.
- Collaborate in the development of the Comenius projects our school is involved.
- Collaborate in the development of extracurricular activities.
- Propose teaching materials in his/her native language.

In IES Joaquin Artiles school, the Erasmus assistant will find a welcoming school community and an excellent working atmosphere.

We invite you to join us!

José Arcadio Suárez Álamo.  
Director IES Joaquín Artiles
